

# Cleanse® Cabinet

## UV SANITIZATION STATION

### Safe and Effective Sanitization for Medical Personal Protective Equipment (PPE)

Keeping our healthcare professionals, first responders and front-line workers healthy and safe is more important than ever. Today, frequent cleaning and sanitizing is commonplace and unfortunately, reusing masks, N95 respirators and PPE is often becoming the new normal. The Cleanse® Cabinet is a heavy duty cleaning station that offers onsite sanitization for these items, as well as small medical instruments, to protect against the spread of germs, bacteria, and viruses.

Armed with multiple ultraviolet (UV) technologies, the Cleanse Cabinet's quick 5-minute sanitization process can inactivate up to 99.9% of harmful pathogens. Equipped with a large cleaning chamber that can accommodate multiple sizes and types of items, the cabinet is a must-have solution for all medical facilities.

Patent Pending

#### APPLICATIONS

Simply load the Cleanse Cabinet with items that require sanitization in a single layer on each shelf, including stethoscopes, small medical instruments, PPE, surgical masks, N95 respirators and other medical equipment. Close the door, turn on, and wait 5 minutes for it to complete its task. This simple process makes the Cabinet a much-needed solution that can be used frequently and repeatedly to keep our health workers safe and to avoid spread of unwanted illness and disease.

**SPECIFICATIONS** *All data shown is nominal*

UVC SOURCE	
Wavelength	250–280 nm
Life	Up to 10,000 Hrs depending on usage
Sanitization	99.9% pathogens eliminated
ELECTRICAL	
Input Voltage	110–120 V
Power	250W
Mode	5 Minute Sanitizing Cycle
MECHANICAL	
Outer Dimensions	43 x 18 x 48 in
Interior Volume	20 ft³
Weight	300 lbs
Material	Stainless Steel with UV Resistant Finish
Safety	Auto-Shut Off when door opens
