SOLUTIONS

**COMPREHENSIVE ENERGY
OPTIMIZATION SOLUTIONS**
for ESCOs, Utility-driven Programs & Energy Retrofits

DRIVE-IT

THE RIGHT VFD FOR YOUR APPLICATION, FOR TODAY AND FOR THE FUTURE.

The RES DRIVE-IT Program is a custom VFD Application Assurance Program to provide the best solution for your drive opportunity.

What can you expect with the DRIVE-IT Program? Rexel Energy Solutions will:

- Educate you and your customers about the benefits of installing a VFD
- Qualify the specific opportunity and application
- Review the local utility rebates offered
- Specify the best VFD products for the application
- Simplify the site audit form, and check motor compatibility
- Provide harmonic calculations & studies
- Develop VFD energy savings calculator & proposal, including power costs and runtime
- Host the VFD feature and benefits discussion with your customer
- Review application-specific parameters and the building control system
- Collaborate on additional measures for deeper energy savings

NATIONAL MOTORS & DRIVES SPECIALIST

RES Technical Specialist specifically focused on Motor & VFD solutions for both small business and large C&I applications.

Richard Chmiel, National Motors & Drives Specialist
