

Activity Choices & Description for the afternoon of Thursday, Sept 19

Golf

The Coeur d'Alene Resort has spared nothing to deliver the ultimate golfing experience, once described as "America's Most Beautiful Resort Golf Course" by Golf Magazine. As a golfer, your experience begins with a ride in a sleek mahogany boat that brings you across the waters of Lake Coeur d'Alene to meticulously manicured fairways—and that's just the beginning. Gorgeous lake views on nearly every hole await you, with every feature—from hole design to luxury carts—expertly curated and attended to. This is, quite simply, a golf experience like no other.

ATV Tours

Take a vigorous scenic ride on the Canfield Mountains Trail system. The Canfield Mountain system can take you from Idaho to Montana and all the way up to Canada. Atop these mountains you can see beautiful vista views of local lakes; Coeur d'Alene, Hayden, and Pend Oreilles. The trail is teeming with native plant and wildlife that will give you a taste of Idaho's rugged outdoors.

Clay Shooting

Double Barrel Ranch offers a variety of targets, which are modified regularly, and they utilize the newest equipment available in a variety of exciting games. Open year-round pheasant and chukar hunting, sporting clays, and a great escape to the outdoors.

Kayaking Lake Coeur d'Alene

The perfect outing to complement a visit to Coeur d'Alene, these lake kayaking trips take you to a peaceful and lovely nature preserve in Cougar Bay at the northwest corner of Lake Coeur d'Alene and includes a short hike if time allows. The highlights of this paddle included seeing the nesting osprey and floating amongst the quite serenity of nature on the lake.

Lake Fishing

Sport Fishing; be it for salmon, pike or bass is an age old pastime. Experience the spectacular scenery, the abundant wildlife, bald eagles and osprey. Together the experience will leave you "reeling". Lake Coeur d'Alene is deep and clear with steep rocky ledges, gravel beaches and shallow bays. These conditions make for diverse fishing opportunities. The majority of lake fishing will be trolling with the use of down riggers. It is recommended that you wear clothing appropriate for the weather and wear sunscreen.

Fly Fishing

Not only is this a beautiful spot, but the fishing is great too! Whether you are a beginner or a seasoned angler this trip will be different. The Coeur d'Alene River contains a very healthy population of native Westslope Cutthroat Trout. These fish are spunky fighters and readily take dry flies. In addition to these beauties, there are also Blacktail Cutthroat Trout. The Blacktail can only be found in the Coeur d'Alene River. They are a new strain of fish, discovered recently. As a matter of fact, our guides were instrumental in bringing the existence of this fish to the attention of fisheries biologists. Chinook Salmon can also be found in our river. The salmon when hooked will strip line to your backing testing the limits of your equipment and your resolve.

Spa Treatments – Appointments on own

Welcome to a land of water and cedars. Everything The Coeur d'Alene Resort Spa has to offer springs from natural Northwest elements—the water and stone, once shaping our local landscape's ancient glaciers, now resides in our mountains, valleys, rivers and alpine lakes. At The Coeur d'Alene Resort Spa, water is everywhere—it flows, splashes, soothes, invigorates and cleanses.

Let the stress leave your body and bask in ultimate relaxation. For four consecutive years, The Spa at The Coeur d'Alene, has been ranked one of the top resort spas in America, according to Condé Nast Traveler's Gold List, while MSNBC.com has named it one of the "World's Most Romantic Spas." Experience the Spa for yourself by booking a treatment, service or package.
